

## BFA Mothers Day survey 2022

### Q9. Responses

They dropped slightly

Slightly cheaper beginning of the week but got more expensive as the week progressed,

Some flowers were a little cheaper than of late, but some remained pricey such as Eustoma

Certain flowers dropped a lot, but others held their price

Prices did ease on some items which was helpful

I found that some things "fell through the floor" others held a more normal year-round price

Price decrease but def not fell through the floor

Some items dropped some stayed same

I paid more for my pre order flowers, which I had just bought as I went and as the price dropped.

It was mixed prices a lot easier than expected

Prices came down - glad I didn't pre-order

Lower whole than valentines few flowers crept up in price e.g., roses

Slight reduction in wholesale prices if I'd pre-ordered I' would have lost out

Most prices very reasonable

Drop

Flower prices back to normal

Slight decrease on most things

A lot of prices dropped

Prices were good some were increased

SOME PRICE DECREASED
